

**Domestic Infant Adoption**  
**CONTINUING EDUCATION RECORD**

Infant Adoption Families need to complete 4 hours (per adoptive parent) of continuing education annually. This is the time from original homestudy approval to annual homestudy update. We hope this will help families to be even more prepared for their adoption plan!

**Requirements for Continuing Education:**

- Topics should relate to parenting, child development, culture, adoption and/or adoptive parenting
- You can “mix and match” training modalities, e.g. webinar, in-person, community-based, social/networking activities (e.g. support groups, Waiting Family Group, meeting with other adoptive families), etc. – the sky’s the limit!
- Training must be from at least two different sources totaling four hours per year. Reading a book on related topics will be counted as *one hour per book read*.
