Domestic Post Adoption Services
Service Descriptions

Search & Outreach
We conduct searches on behalf of adopted adults (age 19 and older), birth parents, or adoptive parents of minors who are seeking updated social/medical history or contact with one another. We can search for, or on behalf of, birth parents named on the original birth record or adjudicated in a court of law. As part of this process, we facilitate the exchange of genetic/medical information and provide support to all individuals involved in the search process; those who are initiating the search, as well as those whom we contact. Once the other party is found, your social worker can act as an intermediary with ongoing communication in order to support the developing relationship, maintain confidentiality as desired, or to address challenges as they arise.

The searcher uses a variety of methods to confidentially and respectfully search for the parties you wish to contact. Prior to your search starting, your social worker will speak with you in detail about your motivations to search, the range of possible outcomes, and access to support systems during the search and outreach journey. Please include an introductory letter with your request. See enclosed guidelines. Or you may wait and submit your introductory letter after consulting with your case manager.

If you are seeking updated medical information only, and do not want facilitated contact, we will reach out for updates at a reduced search fee.

Full Search & Contact: $800 + $35 registration fee
Outreach for Medical Updates: $400 + $35 registration fee
2nd Search & Contact: $600 + $35 registration fee

Professional Services
A post adoption professional can provide short term assistance to support developing relationships between a birth parent, adoptive parent or adopted adult while maintaining confidentiality as desired, assist in an initial visit, or help problem-solve challenges as they arise.

Non-Identifying Background Report
Adopted adults and/or adoptive parents of a child under 19 may request a report detailing the social and medical background of the adopted person's birth family. This report is compiled using information in the file at the time of birth through the placement into adoptive home. The file may contain the social and medical history of relatives including medical conditions, physical descriptions, ethnic background, religious background, schooling, talents and hobbies. It may also include information about the nature of the birth parents' relationship and reasons for adoptive placement.

Please note: Clients may add a Non-Identifying Background Report to their Search & Outreach services for a reduced rate if requested at the same time.

Non-identifying Background Report: $125 + $35 registration fee
Background Report plus Search & Outreach: $100 + $800 + $35 registration fee

Brief Service
File review for updates and other special requests
Birth parents, adoptive parents, or adopted adults are able to add a letter or photo to a file or request that their file be checked for updates. Requests for information about paternity status are also honored. There is no charge to update your file with contact information (phone, address, email).

Per Minnesota Statute 259.83, an adopted adult placed after August 1, 1982 may be able to receive identifying information from their placing agency about one or both of the birth parents named on their original birth certificate, provided the birth parent(s) did not file an Affidavit of Non-Disclosure.

Brief Service Requests: $25 + $35 registration fee

NOTE about vital records: By law (MN Statute 144.225 and 144.2252), the Adoption Programs of Lutheran Social Service and Children’s Home Society of Minnesota do not maintain or release copies of birth certificates, death certificates, or other vital records. We can give clients information on how to obtain these records from the Minnesota Department of Health (MDH), or you can visit their website at: http://www.health.state.mn.us/divs/chr/osr/. If you are seeking records from other states, please contact that state for more information.

Post Adoption Search & Outreach
Introductory Letter Guidelines

As you prepare for outreach, we ask that you write a letter to the person with whom you desire contact. This letter introduces you to the other person and can help initiate a conversation and answer initial questions and concerns. Here are some guidelines to consider as you prepare your introductory letter. You can share as much or as little information about yourself as is comfortable for you. You may feel a special bond to the person you are reaching out to, simply because of your ‘relatedness’. However, please consider that you do not yet know the person that you are reaching out to. You can always share more, but you cannot take back information that you’ve shared.

- We recommend a gradual approach to releasing identifying information about yourself, e.g. begin with your first name and state of residence. Our agency can only pass along the identifying information that you give us permission to share on the enclosed Release of Identifying Information. Over time, once trust is established with this new found relative, you may choose to share more information. It is up to you how much information about yourself you wish to share and when. We can provide guidance and things to consider over time.

- You may share general information about other family members, but our agency will need a signed Release of Identifying Information from the family member in order to share his/her identifying information or photo. For example, you may share that your son David is a junior in college studying psychology. You may not share the specific college or location without his signed consent. You may share that there is a family history of diabetes, early heart attacks or other important medical information. You may not share that your sister Mary Brown lives in Seattle Washington and has diabetes. Thank you for understanding that each adult must give our agency their signed consent to share their own photo or information that leads to their identity.

- Based on the events and environment that shaped the adoption story, the recipient may have preconceptions of who you are or what you experienced. Describe your personality. How have you changed?

- Provide a physical description. If you include a picture, describe the context in which the picture was taken. Please don’t include a photo or identifying information of others without their written consent.

- Share highlights from childhood. Avoid full names, birthdays, cities, or other identifying information of others.

- What are your educational and/or vocational pursuits?

- Describe your family and relationships. You may use their first name and the ages of individuals, but not a complete date of birth.

- What are your interests, hobbies, leisure-time activities?

- How has adoption impacted your life? The other person may be concerned about negative feelings you have about your adoption experience.

- Share your expectations / hopes for outreach and the nature of contact in which you are interested (e.g. letters, phone, email, direct contact). What led you to do outreach at this time in your life?

- What specific questions do you have? This could include medical information, updated family information, etc. Having specific questions can help the other person formulate their response.

- We suggest that you include a photograph of yourself. Seeing familial resemblances can be very powerful!

Please include your introductory letter and a photograph with your service contract. OR, you may wait to discuss the letter with your case manager before completing the letter and submitting it to our agency.

I/we hereby give my/our consent to CH/LSS to release any or all of the above information. I/We assume full responsibility for whatever may result from this action. I/We will not hold CH/LSS responsible in any way for the results following the release of this information to any person, organization or governmental entity necessary for the delivery of post adoption service. I/We understand and accept that CH/LSS cannot guarantee my/our confidentiality. ☐ I/We certify that I/we have retained a copy of this signed document for my/our own records.

Data Privacy Notice: During your adoption, information and data about you as a client/family will be shared with Departments of Human Services and Department of Health, District Courts, USCIS office and our program staff via email as this is the most expedient method of transfer of information. CH/LSS does have ongoing internet security safeguards, however, we cannot guarantee complete and secure privacy of the data as it is transmitted via the usual and ordinary transferal methods of Outlook email services, as is true with all internet services. You have the option not to accept this means of transferal, by informing CH/LSS in writing, but know that transmission by fax, which is more secure, may slow down or prohibit your adoption process.

Things to Consider Before You Search
Post Adoption Services

_Carefully consider your expectations._
Think about what kind of search outcome you are hoping for. What are your expectations for the process and result? Are you seeking information? Some level of contact? An ongoing relationship? How do you envision it to be?

_Be prepared for a variety of outcomes._
If your search outcome is not what you had hoped, how will you handle it? What if the other person cannot be located? What if they are deceased? What if they do not wish to have any contact? What if the information you find contradicts what you had believed to be true? Think about how you might respond to a range of potential outcomes.

**What happens if the other person does not want any contact with me?**
If the person does not initially desire contact, we generally encourage him/her to think about it further and provide support/resources. If a firm decision for no contact is made, we would attempt to gather updated non-identifying health information and provide that to you, along with any other information he/she wishes to share. Keep in mind, this person does not know you and has no basis to like or dislike you. The other person is making their decision based on their own readiness and emotional needs or current life circumstances (caring for an elderly parent, divorce, etc).

**What happens if the search reveals that the other person is deceased?**
If a birthmother is deceased, we would attempt to contact a close relative of the birth mother (sibling or child of birth mother), if contact with a relative is desired. The searcher may petition the court for the original birth certificate.

**Can I find out more about my birthfather?**
We can provide non-identifying information from our files about birth fathers. However, some files may not have much (or any) background information on birthfathers if the birthmother did not provide it at the time of placement. Whether or not you are able to search for your birth father is, in part, determined by documented paternal status of the father on record.

**Consider who is in your support network.**
Examine your support system. The search can be a long, emotional journey, so it is very important to have supportive people to talk with about your feelings and experiences, before, during and after your search. Consider exploring adoption-competent counseling resources. Our agency provides a variety of support groups if you live near the metro, and many other resources which may be found here [https://chlss.org/post-adoption/post-adoption-resources/](https://chlss.org/post-adoption/post-adoption-resources/).

**Be prepared for a wide array of emotions. Reunion is often described as an emotional roller coaster.**
Fear, obsession, anger, guilt, shame, anxiety and exhilaration are all feelings that are commonly experienced. Anyone involved in a search (birthparent, adopted adult, etc.) may experience these emotions, as well as resurfacing grief issues. Consider that the searched-for person may not have had the mental and/or emotional preparation and support that you have had. Even those who are open to contact may be very overwhelmed by unexpected contact. They may need more time and patience to process their thoughts and feelings.
