

COLOMBIA SUMMER HOSTING PROGRAM

Hosting Program Details

Children's Home partners with Kidsave to help older children from Colombia experience the joys of summer and to help them find permanent, loving adoptive families through their Summer Miracles® Program. Children stay with host families for 4-5 weeks during the summer in designated communities throughout the United States. Generally, the children range in age from 10 to 14. Some may have siblings. While the children stay here, they learn about the U.S. culture, experience life in an American family, and build lasting relationships with caring adults. Host families work together with the local Kidsave community to help the children meet potential adoptive families. Some families move forward to adopt the children they host.

Once you have completed your host family application process through Kidsave, Children's Home can help you with the required hosting assessment and agency training. Should your family wish to move forward to adopt the child(ren) you hosted, we can also assist you through the adoption process.
