

POST-PLACEMENT REPORT REQUIREMENTS

Post-Placement Reports are vital for establishing credibility and helping to ensure the continuation of adoptions from your child's birth country.

For families whose homestudy/adoption study was not written by Children's Home:

Children's Home will contact your local agency to be sure that they are aware of the post-placement requirements established by the government of Korea.

For all families:

Please work with your local social worker to set up a reporting schedule that most efficiently meets both the state and country requirements.

REPORTS MANDATED BY KOREA

The Korean agencies and the adoption laws of Korea require that a series of reports (including photos) about your child's development and adoptive placement, as well as letters to both your child's birthmother and foster mother be written and submitted via Children's Home Society. Submit all letters in English.

The schedule for these reports and letters is:
